### Message from HOD Electrical :

To develop the department benchmark at the national level, embedded with quality, innovation, R&D activities and industrial consultancy in the domain of Electrical Engineering.

To provide quality education at under graduate and post graduate level in the field of Electrical Engineering for meeting the current and future requirement of industry and to contribute in the growth of wealth and welfare of humanity.

To create opportunity for one and all by enhancing quality of infrastructural facilities and human resources in the field of Electrical Engineering and promoting round the clock connectivity for availing the resources to the fullest.

*Er. A. K. Baliarsingh*

### Message from HOD Mechanical :

It is my pleasure and honor to welcome you to the departments of Mechanical Engineering. Mechanical engineering is one of the oldest and broadest engineering disciplines, and plays a significant role in enhancing safety, economic vitality, enjoyment and overall quality of life throughout the world.

Mechanical engineers have an important role to play in practically every industry; be it automotive, aerospace, chemical, process, electronics or software. Be it sports, medical or any product development; mechanical engineers contribute to it substantially. Our departments has a team of highly qualified and experienced faculty, excellent infra structure and lab facilities.
